Computer Fundamentals

Chapter - 1

1. Functionalities of a Computer
2. Computer – Applications
3. Classification of Computers
4. Computer Components
   - Computer - CPU(Central Processing Unit)
   - Computer - Input Devices
   - Computer - Output Devices

Chapter – 2

5. Computer Hardware
   - Motherboard
   - Monitor
   - Keyboard
   - Mouse

Chapter – 3

6. Computer Software
   - System Software
   - Application Software
   - Programming Software

Chapter – 4

7. Operating System
   - Batch Processing Operating System
   - Time Sharing Operating System
   - Distributed Operating System
   - Network Operating System
   - Real-Time Operating System

8. Generations of Operating System

Chapter – 5

9. Computer Memory

Chapter – 6

10. Computer Networking
11. Computer Internet & Intranet

Chapter -7

12. MS Office
   - MS Word
   - MS Excel
   - MS PowerPoint
